Summary

Data Scientist with a strong foundation in Python, SQL, and data analysis. Experienced in data manipulation, machine learning, and dashboard creation. Seeking to leverage technical skills and passion for data to contribute to innovative projects.

Skills

Python: Advanced, including NumPy, pandas, matplotlib, seaborn, Plotly, scikit-learn, Keras.

HTML, CSS, JavaScript: Proficient in web content structuring, styling, interactivity

Excel: Advanced in data entry, formatting, formulas, analysis, charting, PivotTables, dashboards

KNIME and ODM: Proficient in data analysis, machine learning, interactive dashboard creation

Looker Studio: Familiar with dashboard creation, KPI setup, various charts, Dynamic Dashboarding

PowerBI: Familiar with data modeling, time intelligence, interactive dashboards, report, row security, DAX

SQL: Proficient in SQL fundamentals, advanced querying (complex joins, subqueries, nested queries), data manipulation, aggregations, filtering, grouping, indexing, and advanced SQL functions for comprehensive data analysis

Experience

Virtual Internship, **Spark Foundation**, Pakistan
Engaged in data analysis projects, learned advanced data manipulation techniques, and created interactive dashboards for data visualization

Data Analytics and Visualization Job Simulation, **Accenture North America**
Engaged in data analysis projects, learned advanced data manipulation techniques, and created interactive dashboards for data visualization

Education And Training

Matriculation, Bio-Science
St Patrick's High School, Karachi

Intermediate, Pre-Engineering
NCR-CET College, Karachi

Associate Diploma, Data Science
Ned University, Karachi

Bachelor Of Science, Computer Science
Karachi University, Karachi

Extracurricular Activities

Shaukat Khanum Fundraising - Volunteer
Karwan-e-Hayat Standup Comedy Show - Volunteer
Milad Event - Organizer/Participant
Inter College Cricket Tournament Karachi University - Participant
IBA Data Science Competition - Participant

Certifications

SQL Data Analysis Training Program - Poshem Technology
Python Data Analysis Training Program - Poshem Technology
Excel Data Analysis Training Program - Poshem Technology
Data Science Bootcamp - Microsoft Learn Student Ambassadors
Survival Analysis Training - Orange Data Mining
Virtual 2-Month Internship - Spark Foundation
Certified Python Developer - Cisco Certification Network
